per session.

Ar. **Alan Tay** is one of the Founding Partner of Formwerkz Architects, a practice known for its innovative and human-centric approach. In recent years, the team grew into a multi-disciplinary design collective of 160, with specialisation in hospitality and retail experience, branding and marketing, industrial design, digital fabrication, consumer behaviour and data analytics. Formwerkz numerous projects have received critical acclaim both locally and internationally. Some of the accolades includes Architecture Review Faith Award, The Building of the Year and Design Awards from the SIA, FRAME Award, International Architecture Award from the Chicago Athenaeum and the European Urban Centre, Design for Asia Award. Selected by URA as one of the 20 Under 45 rising architects in 2004, Alan also serves as adjunct assistant professor at the School of Architecture, NUS. He believes in the transformative power of Design in effecting change and making the world a better place.
