

# PLANNING LOGS

Ar. Jerry Ong is Senior Vice President of the Healthcare Division at CPG Consultants, a multi-disciplinary consultancy providing a full spectrum of design, development and management services.

Championing integrated design solutions aimed at realizing sustainable environments and meeting emerging challenges, CPG Consultants' landmark developments include Khoo Teck Puat Hospital, The National Centre for Infectious Diseases (NCID), Centre for Healthcare Innovation (CHI), Gardens by the Bay and the National Gallery of Singapore etc.

As with CPG's holistic approach and innovation, Jerry's versatility as an architect and designer has shone through award winning projects he worked on. He was the key project architect for Khoo Teck Puat Hospital, NCID and CHI, all of which won multiple awards locally and internationally. With his invaluable experience, Jerry continues to contribute to a better built environment both in Singapore and globally.
